## LANGUAGES

- English (Professional)
- Italian (Native)
- German (B1 - currently learning)
- Spanish (Basic)

## CERTIFICATIONS

- **ISTQB® Certified Tester** – Foundation Level CTFL v4.0
- Fahrsicherheitstraining der Deutschen Verkehrswacht
- First Aid Training for Company First Aiders (Deutsches Rotes Kreuz)
- Safe Driving Course On Road (Organismo Paritetico Health and Safety)
- ETS Global - TOIEC Listening and Reading:
  865/990 - C1 Level (Sept. 2020)
- Cambridge B2 First Certificate (FCE): Grade C, 169 (2015)

## PUBLICATIONS

*July 2022*
**22th edition of EEEIC (International Conference on Environmental and Electrical Engineering):**
***"Cost and Emission Comparison of Long Distance Travel and Life-Cycle for EV and ICE Vehicle: a Case Study"***

*Aug 2024*
***"Experimental Observation and Validation of EV Model for Real Driving Behavior"***

## SOFT SKILLS

Collaboration, teamwork, flexibility, proactivity, problem-solving, critical thinking, planning and time managing, report writing, communication, dedication and perseverance

# Mechanical Engineer

Mechanical Engineer with strong experience in automotive testing, EV systems and software validation. Currently working in Germany on advanced projects, with focus on diagnostics and system integration, reaching a fully understandings of vehicles and automotive systems.

## WORK EXPERIENCE

*Feb 2025 - Present | Stuttgart, Germany*
**ALTEN Germany** - Software Test Engineer

**Mercedes-Benz Projects:**

- **E2E and Connected Services Testing**
- **Keyless-entry system**
- **Pre-integration of new infotainment system Gen20x.i4**
- Execution of software testing based on functional requirements, ensuring compliance with quality standards
- Flashing and coding of ECUs for vehicles, ensuring proper functionality and integration
- Maintaining and supporting infotainment systems (NTG7, Gen20x.i2, Gen20x.i3), diagnosing and resolving technical issues
- Hands-on experience with vehicle communication units (HU,TCU) as well as the use of automotive tools and interfaces
- Test log analysis, review of product/feature specifications, and validation against test scripts and requirements
- Creation and maintenance of test cases, manuals, and detailed technical reports
- Issue reporting and communication with stakeholders, ensuring traceability and test coverage

*Oct. 2023 - Jan 2025 | Turin, Italy*
**STELLANTIS** - ePT Validation and Charging Test Engineer

- **EV/EVSE Wallbox Charging process validation**
- **HV Batteries validation for Plug-in Hybrid Electric Vehicles**
- **Validation of software integration in the electric propulsion system ECUs for the 332BEV project (FIAT 500e)**
- **Innovative AMPLE HV battery swap project**
- BMS and EVCU software commissioning activities
- Design and Validation Planning
- Gateway procedures application, with development of CAPL scripts through Vector tools
- CAN and LIN communication and First Level Analysis

## TOOLS AND HARD SKILLS

**Diagnostic/Flashing:** DTS9, TUT, CDA, DIANalyzer, UFT, XPCAT
**Logging/Analysis:** Xoraya, LoggerSuite, SystemClient, CANalyzer
**Testing:** TDU, Picoscope (oscilloscopes), Canoe, CAPL, INCA/MDA
**Reporting:** Starc, Codebeamer, Jira, Confluence, MSOffice&Excel
**Other:** Matlab/Simulink, Python, CAD softwares (Fusion/Inventor)

## EDUCATION

*Sept. 2020 - July 2023 | Milan, Italy*
**Politecnico di Milano**
***Master Degree in Mechanical Engineering***
Final Mark: 105/110
Master Thesis: "*Electric Vehicle Modelling, Simulation and Validation on Real Driving Conditions*"

*Sept. 2017 - July 2020 | Lecce, Italy*
**Università del Salento**
***Bachelor Degree in Industrial Engineering***
Final Mark: 110/110

*Sept. 2019 - Feb. 2020 | Târgu Mureș, Romania*
***Erasmus+ Program***
Universitatea de Medicină, Farmacie, Științe și Tehnologie "George Emil Palade"
